## SUMMARY

I completed my Bachelor's degree in Computer Engineering at Tokat Gaziosmanpaşa University. I have gained experience in mobile application development with Flutter, web programming, and database management. During my internship, I strengthened my technical background with hands-on practice. I am a software developer who is curious about new technologies, open to improvement, and eager to take an active role in projects.

## EXPERIENCE

### Computer Engineering Intern

July 2024 – September 2024

EDUJI ARAŞTIRMA GELİŞTİRME YAZILIM TASARIM VE DANIŞMANLIK A.Ş. | Bornova, İzmir

- Contributed to the development of a reward-based, survey-driven mobile application.
- Designed UI with Figma and implemented the interface using Flutter.
- Performed REST API integration, user session management (token authentication), filtering, and pagination.
- Used GetX for state management and FlutterSecureStorage for secure data storage.
- Tested backend APIs with Postman and collaborated closely with the backend developer.

**Technologies Used:** Flutter & Dart, Figma, REST API, GetX, Firebase Cloud Messaging, Git & GitHub, SQLite, Postman.

## EDUCATION

### **Kepirtepe Anatolian High School**

Graduation Year:2021

**GPA:** 82.5799 / 100

### **Tokat Gaziosmanpaşa University**

September 2021 – June 2025

**BSc in Computer Engineering**

**GPA:** 88.02 / 100

- Gained theoretical knowledge in software development, algorithm analysis, database management, artificial intelligence, and network security.
- Developed basic AI and deep learning projects using Python.
- Built mobile applications using Java and Android Studio.
- Created dynamic web projects with PHP and MySQL in web programming courses.
- Played active roles in both individual and team projects.
- Improved project management, version control (Git), and technical presentation skills.

## TECHNICAL SKILLS

**Programming Languages:** Dart (Flutter), Python, Java, JavaScript, C#, SQL, PHP

**Database Technologies:** MySQL, PostgreSQL, SQLite, SQL Server

**Mobile & Web Development:** Flutter & Dart, Android Studio, ASP.NET, Firebase, HTML, CSS

**Tools & Technologies:** Git & GitHub, Figma, Postman, Visual Studio Code, Visual Studio, Canva

**Competencies:** RESTful API integration, UI/UX design, responsive interface development, mobile app development, state management (GetX), software development lifecycle, project management, teamwork, machine learning and basic deep learning, object-oriented programming (OOP)

## LANGUAGES

**Turkish:** Native

**English:** B2 (Upper-Intermediate)

**German:** A1 (Beginner)

## CERTIFICATES

- BTK Academy** – Git and GitHub
- BTK Academy** – Cyber Security
- BTK Academy** – Microsoft Excel Basics
- Women in Tech 2024** – Inspiring Women Stories
